DAY 4. CHARYN CANYON

Breakfast in Hotel

CHARYN CANYON

is one of the most unique objects of nature. Under the influence of millennia of weathering processes of sedimentary rocks, the relief took the shape of isolated rocks, columns and towers. It is a natural monument, the age of which is about 12 million years.

The Charyn Canyon is located in the Charyn National Park about 215km east of Almaty. The Canyon has been described as the Grand Canyon's little brother. This is not to detract from the sheer splendor of the canyon itself. The vista of dramatic erosion made by the river Charyn below and the elements has created a dramatic and impressive landscape. The Canyon itself is approximately 150 km long, and, in places up to 300 meters deep. One area of particular interest, is an area of 2km called the Valley of Castles, due to the pillars and rock formations forming imposing, almost manmade structures.
